

Together We Aspire

Rackathon

-2019-

CiteA Apart-Hotel, Ashrafyeh

April 13, 2019

PURPOSE AND SCOPE

Rackathon is a one-day Hackathon for Rotaractors organized by the Rotaract Club de Beyrouth, in collaboration with l'Agence Universitaire Francophone (AUF) and more precisely the DEEL program and Injaz Lebanon

and sponsored by Rotary Club De Beyrouth.

Injaz Lebanon is delivering the Innovation camp that is sponsored by Citi Foundation.

The aim of Rackathon is to assist participants in developing entrepreneurial skills in order to deliver social impact within their communities. Participants will undergo an array of multiple workshops spearheaded by expert mentors who will help the Rotaract teams of Lebanon turn ideas into pragmatic, scalable solutions!

This program will provide the participating teams with professional development skills, networking opportunities and will strengthen their contributions to their clubs' future initiatives.

It is a one of a kind event since the participants will be wearing many hats: from being an entrepreneur, social entrepreneur and transformational change leader. The scope of this project targets professional development and community service.

Winners will get the chance to implement the projects in their community, as Rotary Club de Beyrouth will fund it.
